THE WARD-BELMONT SCHOOL

HISTORICAL SKETCH

Ward-Belmont School, comprising a four-year college preparatory course and a junior college for young women, is the outgrowth of the union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865, by Rev. William E. Ward, D.D. This Seminary was established when Dr. Ward learned that the Nashville Female Academy, founded in 1820, could not re-open after the Civil War. Dr. Ward states the cause of the founding of this school in the following words: "It was conceived that the want of the country was a more thorough preparation of young women for the duties of life. To this end a free, classic course was inaugurated and a full course in all other departments. It was intended that the full meaning of the word 'educate' should be striven for—the drawing out of all the powers, mental, moral and aesthetic." From the very days of its foundation it filled a distinct need not only in the local community but in the surrounding states as well. Dr. Ward, with his wife as an efficient co-laborer, directed the affairs of the school for over twenty years. In 1892, after the death of Dr. Ward, Dr. J. D. Blanton and his wife became associated with the school. In 1890 Belmont College was established by Miss Ida E. Hood and Miss Susan L. Heron. The character and purpose of this school is best expressed in a statement by the founders: "The guiding thought and spirit of our work is the conscious desire to impart practical knowledge in such manner as best develops power, recognizing that far higher than this is the unconscious influence that emanates from the atmosphere and environment of a wisely directed school, and is woven into the lives of all that come within its contact. It is our purpose to furnish opportunities for a broad and scholarly education."

In June, 1913, when Misses Hood and Heron expressed a desire to retire, the two schools were united on the Belmont campus under the name "Ward-Belmont School." The present school counts as its loyal alumnae the graduates of both Ward Seminary and Belmont College. Since the consolidation, the school has offered a four-year college preparatory course, and two years of college work. In every sense it has been a pioneer in the junior college movement. Within a year of the consolidation Dr. J. D. Blanton became President and continued in that office until his death in 1933. In December, 1933, Dr. John W. Barton, a Vice-President, was chosen President.
NASHVILLE AND ITS ATTRACTIONS

For over one hundred years Nashville has been well known as an educational center. Schools of every type are found here. The Vanderbilt University with its various professional schools, George Peabody College for Teachers, Scarritt College for Christian Workers, the Southern Y. M. C. A. Graduate School and Ward-Belmont are located in the same general community, and give to Nashville a distinct charm and atmosphere of culture which makes this city an ideal home for students. Such an educational center naturally attracts the best lecturers and artists. Ward-Belmont students have the advantage of attending all of the leading concerts, plays, and lectures that are available in the city, while annually a very high-class artist series is presented in our school auditorium.

There are some very interesting examples of architecture in Nashville well worth a visit of the students. The State Capitol is an excellent example of classical architecture. Located at a central point in Centennial Park is a facsimile of the Parthenon, true in every detail. One of the newly erected buildings in Nashville is the imposing Tennessee War Memorial Building surrounded by a memorial park of some pretension. To the west of the school is the Belle Meade section, for many years the South’s most celebrated stock farm, and now Nashville’s most exclusive residential section. The Hermitage, the home and burial place of Andrew Jackson, is twelve miles to the east. Not far from the campus is the battle field of Nashville where there was erected recently a memorial commemorating a reunited country.

CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school work. Pupils from more Northern states, as well as those from farther South, find here a school unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the excellent health record of the school.

Ward-Belmont realizes how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is filtered, cooled, and is supplied in hygienic fountains throughout the well-buildings; trained and experienced nurses have charge of a well-room; students are taught the importance of diet and exercise, much is done to induce an excellent health record. A further precaution is the requirement that a certificate of good health be furnished by every student.

As nourishing food is the best agent for the most effective physical and mental advancement, special care is paid to the food. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining halls are commodious and attractive. The menus are supervised by a trained dietitian.

CAMPUS

Ward-Belmont, with an elevation of one hundred feet above the city, stands in the beautiful park which was formerly the site of Belmont. Extensive additions have been made to both the grounds and the buildings. The campus of forty-five acres, a part of which is devoted to athletic fields, is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railroad station, the shopping districts, and the churches of all denominations in the city are easily accessible.

BUILDINGS AND EQUIPMENT

The nucleus of the buildings is the old Acklen residence, an unusual adaptation of Italian architecture. Grouped around this interesting example of the center of an old Southern estate are the buildings which have been added at intervals by the school. These buildings are arranged in the shape of a quadrangle with one open side. On the north side of this square are located Fidelity, North Front, South Front, and Founders Hall, with the drawing rooms, the auditorium, and the dining rooms; on the east, three other residence halls—Pembroke Hall, Heron Hall, and Hall Senior Hall; on the south, the Academic Building and the Gymnasium. Other buildings on the campus include the high school building, the music practice house, the social club buildings, and the heating plant. Buildings adjacent to the campus are utilized for the intermediate school, home economics classes and additional music studios. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914. The ground floor of this building contains the biology, physiology laboratories and
lecture rooms. The offices, library, and some of the class rooms occupy the main floor. On the second floor are the class rooms for literary subjects; here also is the expression studio, amply adapted for class work, and for the production of plays before a small audience. The third floor is mainly occupied by the art studio and interior decoration rooms. Most of the high school classes are held in the high school building.

A gymnasium, with every modern improvement, has been completed. In style it conforms to that of the Academic Building with which it connects. The ground floor contains bowling alleys, showers, lockers, linen, shampoo and hair drying rooms. The main floor constitutes the large gymnasium; it provides two spacious well-lighted rooms for all forms of gymnastic exercise. The next floor contains the visitors' galleries, a studio for aesthetic dancing, and three small rooms for special classes, board meetings, and trophies. The swimming pool is in a separate building, which adjoins the gymnasium.

Separate dormitories are provided for college and high school students, thus promoting the individual welfare of each department. These residence halls are well furnished and in their arrangements meet every demand of comfortable and refined home life. Pembroke, Hail Senior, and Heron Halls are arranged in suites of two double rooms with connecting bath, or, in some cases, of two single rooms with connecting bath. Other dormitories have either separate double rooms, with ample sanitary appointments and baths on every floor, or bath suites of two double rooms each. Each room is furnished with rugs, dresser, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

Ten well-equipped club houses have been completed for the ten social clubs for resident students. Each house is prepared for meetings and informal entertaining.

LIBRARIES

The college library and reading room are located in a bright, cheerful room on the first floor of Academic Building. The book collection of 13,000 volumes represents a reorganized, carefully selected library to meet the needs of the students. At present it is especially strong in books of the cultural subjects, such as music, art, literature, modern languages, and history. The resources of the Carnegie Public Library and the college libraries of the city are also available to the students. The increased use and interest in the college library have been most gratifying. The seating capacity of the reading room has been increased to meet added demands.

The reference section contains standard encyclopedias, dictionaries, and tools best adapted for the research work required of junior college students. With the co-operation of faculty members, emphasis has been placed upon the recreational reading of the students. A rental collection consisting of the best in contemporary literature, drama, poetry, biography, and fiction has been provided. Attention is also directed to the classics and standard works through the open browsing shelves of fiction, and through groups of books displayed in the reading room from time to time. The library subscribes for eighty-five standard periodicals. The collection of bound magazines has been built up in numbers and usefulness during the past year. The leading newspapers of the country are also in the reading room for the use of students.

The library is endeavoring to meet the reading needs of the girl of junior college age, both in supplementary reading in connection with the course of study, and in general literature. As a means to a better understanding of books and a more intelligent use of libraries, a course in the use of books and libraries is required of all first-year college girls.

A separate library of 600 volumes, with a supervised study hall, is maintained for the use of students in the high school department. Dupicate copies of periodicals are on file here. The resources of the main library are also at the disposal of the high school students.

The libraries are under the care of a trained librarian and three assistants who have had library training.

The library hours are from 8:00 to 5:00 during the day, 7:30 to 9:30 at night.

RELIGIOUS ACTIVITIES

Though no sectarianism is lived or taught, earnest effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association, in which members of the faculty co-operate with the students. The association and the school jointly employ a secretary, who directs the activities of the Y.W.C.A., so that the influences of this organization are made vital in the life of the school. Systematic Bible training and mission study, devotional exercises at chapel, and frequent visits by the pastors of the city are among the agencies by which the school life is made wholesome and inspiring. The spirit of church
loyalty is fostered by requiring each student to attend, on Sunday morning, the church of her parents' choice.

DRESS AND HOUSEHOLD ARTICLES

Extravagance and extremes in dress are firmly discouraged. The administration presents its ideas and regulations for appropriate dress for the Ward-Belmont girl in a dress circular, which will be sent on request to each mother who contemplates sending her daughter to the school.

An abundant supply of table napkins, towels, sheets, pillow cases, and bedspreads is furnished for the use of each student.

GOVERNMENT

Discipline in Ward-Belmont is simplified by a modified form of student government, properly safeguarded by faculty cooperation and supervision. This organization consists of (1) a student council composed of representatives chosen by the students from the college and high school classes; (2) a faculty committee composed of sponsors of halls and governmental groups; and (3) the President.

Full details of the student government are given in the Blue Book which is presented each student on entering.

EDUCATIONAL OBJECTIVES

Education Should Train the Student to Think in Order to Emphasize Manner as Well as Matter of Thought

Ward-Belmont School is accredited by the Association of Colleges and Secondary Schools of the Southern States, both in its preparatory school division and in its junior college division. The two divisions are separate and distinct so far as content of courses, class rooms, libraries and teaching staff are concerned. The college preparatory division is under a principal while the junior college division is directed by a dean.

The chief function of a woman's junior college is to educate for (1) worthy use of leisure time; (2) health; (3) worthy home membership; (4) vocational training and guidance; (5) continuation in a senior college.

Women, especially married women, have a great deal of time which is employed in non-occupational activities, and their college education will be a supreme failure if it does not train them to devote their minds and energies to self, family and community advancement. Vocations may change so that training in one particular field will be of little value, but few college-trained women really have no leisure. A full life consists much more in doing a few things well and intensively than in doing many things. College should help a student to gain a true perspective of the value of activities to herself.

As much of a woman's activity after her college career is centered in her club memberships, social and civic, she needs a background of knowledge and experience that will enable her to be an efficient leader or an intelligent follower. Ward-Belmont attempts to prepare its students for a worthy use of leisure time through the cultivation of talent (in art, music, expression, linguistics, etc.), of interest in fine arts and of appreciation of civic activities. Courses in History and Appreciation of Music, History of Art, Survey of Literature, Shakespeare and Modern Drama are complemented by concerts, exhibits and lectures in these fields. Student organizations, governmental, literary, athletic and social, are encouraged and supervised to develop initiative and sense of responsibility for community and group welfare. Courses in economics and sociology and in certain phases of religion are designed to give the student a background of knowledge regarding the development and organization of social institutions.

Conservation and improvement of health includes knowledge of bodily functions (which are taught in courses in hygiene and physiology) and participation in exercise for strengthening, for correction of defects, and for carry-over activities as tennis, swimming, bowling, archery, riding, and dancing. Ward-Belmont offers unexcelled opportunities in each of these.

Preparation for worthy home membership is offered through courses in home economics and home management, but even more through group activities and the stressing of ideals of comradeship, courtesy, and consideration. Residence in dormitories, where girls live in close contact under regulations made and enforced by themselves to a great extent, teaches them many of the principles underlying satisfactory group conduct. All resident students have membership in a social club, which gives them further training in making group contacts and assists them also in acquiring and developing poise, dignity, social ease and tactfulness. Sponsors who possess the desired characteristics and who have a knowledge of the problems of young girls and an interest in their development are used for halls and for clubs even as trained teachers are employed for the class rooms.

Vocational training includes those courses which prepare a student
specifically for occupations and emphasize those fields which are most frequently chosen by women—the various opportunities offered in home economics, in fine arts, in social service, in education, etc. Fields which are pre-eminently open to men are left to universities and co-educational institutions.

As seventy per cent of all Ward-Belmont graduates continue their education in some institution of higher learning, especial care is taken to see that those courses are available which best prepare the students for a successful continuance of their formal period of educational activity. Courses of study are selected in consultation with the Dean of Faculty, who attempts to determine the most profitable and enjoyable course for each student.

ADVICE ON CHOICE OF SUBJECTS

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil’s course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. A complete course of study for the ensuing year should be filed in the Dean’s office by August 15, or as soon thereafter as possible. Prospective patrons are urged to co-operate with us in working out this course of study. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually discouraged. In this way continuity of effort and the greatest advancement can be secured.

It is advisable that the student while in the junior college should make preparation for advanced work at the university of her choice. She should enroll in those courses which are required or advised as preliminary to higher studies. English, foreign languages, mathematics, social sciences and natural sciences are the five designated groups from which she should select the major part of her course.

APPLICATION FOR ENROLLMENT

Early application is advised. This application should be made on the school’s blank, which calls for references, and must be accompanied by a physician’s certificate as to the health of the applicant. These forms will be sent on request, and no student can be definitely enrolled until they are properly filled out, submitted to the Registrar with the enrollment fee of $25, and formally accepted.

THE JUNIOR COLLEGE

ADMISSION.—Admission to the junior college is based on the presentation of fifteen acceptable units from an accredited senior high school. All units certified by such a high school and meeting the general requirements as outlined by the various accrediting agencies of colleges and secondary schools are acceptable. In no case, however, may more than four units in vocational and special subjects, or fewer than two units in a foreign language be included in the units accepted.

For those who expect to transfer to senior college with advanced standing, the following units are recommended:

</tr>
</tbody>
</table>

Applicants whose high school credits do not meet the requirements may make up the deficiency by carrying work in the high school department or by counting back college work at the ratio of 4 semester hours* for 1 high school unit.

ADVANCED STANDING.—To receive credit for advanced standing, the student must present to the Dean of Faculty proper credentials from an approved institution of junior or senior college grade. The college credit given will be determined by the Dean and will in no case exceed thirty-two semester hours, including physical education.

Transferred credit for courses specifically required for graduation from Ward-Belmont will not be allowed unless the transferred work is the equivalent of the work required here, or unless subsequent courses in the subject are satisfactorily completed here during the succeeding year. The equivalent of an average of "C" is required on all transferred work.

College credit will not be allowed for a high school course in excess of those units required for college entrance.

CLASSIFICATION.—The work completed by the beginning of the semester determines the class to which a student belongs. A high school graduate meeting the entrance requirements is classified as a

college freshman. Students who present at least twenty-four semester hours plus physical education at the beginning of the semester are classified as sophomores.

CERTIFICATES AND DIPLOMAS.—Certificates and Diplomas are conferred in the curricula listed below. An applicant for any of these awards must complete at least one year's work in Ward-Belmont.

COURSE OF STUDY.—Each student should select courses in line with the requirements for the certificate or diploma for which she wishes to apply. The minimum course requirements for all students are as follows:

<table>
<thead>
<tr>
<th>First Year</th>
<th>Second Year</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>Elective subjects</td>
<td>18 to 28 hours</td>
</tr>
</tbody>
</table>

Students who present transferred credit in English or Physical Education 15, 16 (Hygiene) must substitute other courses to meet the minimum schedule requirements.

Students are required to carry a minimum of three hours a week in the Physical Education Department during each year of their residence in Ward-Belmont.

Day students who wish to carry work in special departments but are not interested in applying for a certificate or diploma are permitted to elect courses without reference to the minimum course requirements.

ORIENTATION.—Lectures will be given at intervals throughout the year to assist students in making the transition from high school to college more easily and to aid them in adjusting themselves to college life more efficiently. Methods of study, proper distribution of time, social and curricular adjustments, vocational opportunities and other questions of interest in personal adjustment problems will be considered in these lectures. Opportunities for conferences on these subjects are offered all students.

Some form of the Otis test, the Thurstone Personality Schedule, and an English sectioning test are given every new student to the end that she may be quickly placed and intelligently guided.

GRADES AND REPORTS.—The following grading system is used:

A, excellent; B, above average; C, average; D, passing; E, condition, F, failure; I, work incomplete or absent from examination. Semester examinations are given in every course in accordance with the schedule issued. Either an E or an I in a semester grade which is not removed during the succeeding semester becomes an F which can be removed only by repetition in class.

Preliminary reports showing progress and standing of students are sent parents at the middle of each semester. Official reports are sent at the end of the semester.

REQUIREMENTS FOR THE JUNIOR COLLEGE GENERAL DIPLOMA.—A total of sixty-four semester hours of college work must be presented by applicants for the Junior College General Diploma; well-established habits of correct speaking and writing must be demonstrated.†

This diploma is granted upon the satisfactory completion of any one of the following curricula:

NOTE.—Quality hours may be earned in the following manner: A six semester hour course completed with a grade of A is equivalent to eighteen quality hours; with a grade of B to six quality hours. Lower grades yield fewer quality hours.

NOTE.—Any student whose oral or written English is at any time unsatisfactory is reported to the Dean's Committee on Oral and Written English. The committee advises the student, and provides her with opportunities for such remedial work as she desires to the end that she may change her speaking and writing habits to meet the standard

The continuation course must be a subject which is built upon the foundation of a course carried the first year and for which the first-year course is a prerequisite. Students who present four acceptable units in foreign languages from high school may meet the continuation course requirement by taking an intermediate course in one foreign language in college. The student is offered a choice among continuation courses as follows: Art 13, 14 or 15, 16 or 17, 18; Biology 21, 22; Chemistry 21, 22; English 27, 28; Expression 11, 12 or 21, 22; French 13, 14 or 21, 22 or 23, 24; German 13, 14 or 21, 22; Home Economics 21, 22 or 23, 24; Latin 11, 12 or 21, 22; Mathematics 21, 22; Music 13, 14 or 23, 24; Secretarial Training 11, 12 or 15, 16; Spanish 13, 14 or 21, 22.

Survey of English Literature, though requiring English 1, 2 as a prerequisite, or practical work in physical education, may not be used to meet the continuation course requirement.

Eighteen semester hours from the special departments of art, expression, home economics, music, and secretarial training, and from the elective courses of the physical education department, may be credited toward this diploma.

(2) TERMINAL CULTURAL CURRICULUM

In keeping with the current trend in education to recognize and provide for the needs of students who do not expect to attend a senior college upon completion of their junior college experience, the faculty has provided the following terminal curriculum. The purpose of the two-year terminal curriculum is to prepare the student for better service in the home and in the community, and for the better use of leisure time. To apply for this curriculum a student needs to offer for entrance any fifteen acceptable college entrance units.

(3) PRE-MEDICAL CURRICULUM

The studies listed below are in general accord with senior college pre-medical curricula. To apply for this curriculum a student should offer for entrance the college entrance units listed on page 21.

DESCRIPTION OF COURSES

Courses numbered 1 to 9 are open to freshman college students. Courses numbered 10 to 19 are open to freshman and sophomore college students. Courses numbered above 20 are open to sophomore college students only. Students who wish to enter courses to which their classification does not entitle them must secure special permission from the Dean of Faculty. If credit is allowed only upon the completion of the year's work the course numbers are separated by a comma. If credit is allowed for either semester of a year's work the course numbers are separated by a semicolon or by a period.

Courses especially designed for the Terminal Cultural Curriculum are designated by a T.

The school reserves the right to withdraw any class for which there are not as many as six applicants.

AESTHETICS

MR. RIGGS  MISS SHACKELFORD

T. 15; 16. Aesthetic Appreciations. The work of the first semester involves the understanding of the essential principles of art expression, namely: balance, rhythm, variety, unity, and harmony. The aim is to present these principles that the student will think through the ways of their operation as found not only in great works of art but also in the objects with which she is surrounded, as problems of home construction, furnishing, and dress.

The work of the second semester is designed especially for those who desire an acquaintance with, and an understanding of, the literature of music, though they may not have had any technical musical training. No previous musical experience is required for admission. Topics which will be discussed and copiously illustrated with duo-art and phonograph recordings include the following: the folk-song, the art song; opera and oratorio; piano music; chamber music; orchestral music, etc.

Three hours a week.
First semester, second semester. Credit, six semester hours.

ART

MISS SHACKELFORD, Director
MISS GORDON

Courses in General Art, Interior Decoration, Costume Design and Commercial Advertising are planned for students who wish to make practical application of art and design in the commercial world.

The work of the school as outlined seeks to develop the creative ability of the student, to advance her skill in drawing and to give her a knowledge of the fundamental principles of art. It is so arranged that the student secures the greatest possible return for the time spent in study.

Satisfactory completion of an outlined course will furnish the basis of success in a chosen branch of art, or will prepare the student to take the examination required for admission and classification in advanced courses by the leading art schools.

The work in all courses is the same in the freshman year but it may be adjusted so that each student may place emphasis upon the fundamental principles of the course which she plans to elect the second year. Students who feel that their previous training should entitle them to admission to the advanced courses will be allowed to stand an examination and will be classified on the basis of their achievement on the test. The advanced courses of study include General Art, one year; Costume Design and Commercial Illustration, one year; Interior Decoration, one year. Arrangements for more advanced work may be made with the Director of the School of Art.

Both certificates and diplomas are awarded by this School. Applicants for either of these awards who have had no previous acceptable training in art may be required to take a double course in the studio during the first year in order to meet the requirements of proficiency for admission to the second-year classes. Hour credit will be granted for this additional work.

A student who applies for a certificate or diploma in Art needs to offer for entrance any fifteen acceptable college entrance units.

CERTIFICATE AND DIPLOMA REQUIREMENTS

The progress of each student is individual. Some students will be able to complete problems in less time than will be required for others who have had less previous training or who have less native ability. Completion of syllabus requirements—not number of hours in the studio—will determine the student's right to receive the certificate or the diploma.

For the certificate a minimum of 16 problems, as outlined in the syllabus, with consistent grades of satisfactory quality will be required. Additional problems to overcome the student's points of weakness and to strengthen her work in her field of specialization will be required.6

For a certificate in Art thirty-two semester hours, including the subjects listed below, are required.

6NOTE—The studio reserves the right to retain certain examples of each student's work to use in exhibitions. These mounts will be returned to students.

   Two hours a week.
   First semester, second semester.

BIOLOGICAL SCIENCES

MISS HOLLINGER

11, 12. General Biology. This course is an introduction to the fundamentals of living protoplasm, a study of cell structure and physiology of plant and animal life. A brief survey is made of the plant divisions from the unicellular forms to flowering plants. A similar survey is made of the animal kingdom. Types are selected from each animal group for comparative study. Consideration is given to the practical relation of biological conditions to human life.
   Lecture, three hours; laboratory, four hours.
   First semester, second semester.

   Prerequisite: Biology 11, 12.
   Lecture, two hours; laboratory, six hours.
   First semester.

22. Vertebrate Zoology. This includes the comparative morphology of the backbone animals and their special adaptations.
   Prerequisite: Biology 21.
   Lecture, two hours; laboratory, six hours.
   Second semester.

MISS SMALL

11, 12. General Chemistry. In this course it is intended to give the student careful instruction in the important principles of Chemistry. All of the non-metallic and the most important of the metallic elements are studied. The intention is to train the student in accurate scientific thinking; to arouse in him an appreciation of the laws of nature; and to set forth some of the practical applications of the science of Chemistry to the many problems of life.
   Lecture, three hours; laboratory, four hours.
   First semester, second semester.
   Credit, eight semester hours.

21, 22. Qualitative and Introduction to Quantitative Analysis. This course is planned to give the student both a theoretical and a practical working knowledge of the methods of identifying the common elements and acid radicals.
   Prerequisite: Chemistry 11, 12 or its equivalent.
   Lecture and laboratory, eight hours a week.
   First semester, second semester.
   Credit, eight semester hours.

23. Organic Chemistry. This course is intended primarily for students of Home Economics. Typical compounds of the aliphatic and of the aromatic series are studied. Stress is placed upon those substances useful as foods.
   Prerequisite: Chemistry 11, 12.
   Lecture, three hours; laboratory, four hours.
   First semester.
   Credit, four semester hours.

ECONOMICS

MISS EWING

11, 12. American Economic Life. Emphasis is placed on the actual conditions which exist in the highly organized society of today.
   First semester topics: Present economic system and its origins; the present levels of living; raising the levels through efficient production, which includes meaning of production and its possible results; rural production efficiency; urban production efficiency; and financial organization.
   Second semester topics: Remaking rural and urban life; raising the level of living through just apportionment of income, through reflective thinking, through better management and government; and through international cooperation.
   Three hours a week.
   First semester, second semester.
   Credit, six semester hours.

21, 22. Principles of Economics. This course deals with the laws or principles affecting the production, distribution, and consumption of wealth, or the material means of satisfying human desires.
   Topics: Economic organization; the basis of the science of economics; industrial evolution; production; the laws of prices; demand and supply; money, banking and exchange.
   During the second semester the problems of the business organization are considered.
WARD-BELMONT

Topics: Transportation; government regulation of transportation; monopolies; insurance and speculation; the distribution of wealth and income; rent; wages; interest; profits; the economics of government taxation; the problems of labor; reforms of the economic system.
Three hours a week.
First semester, second semester.

T. 24. The Present Economic Order. The plan is not to include theories but to bring out as clearly as possible some of the major economic factors that one faces today. Such topics as these will be covered: a description of our present economic order, including money, the types, meaning of exchange, financial institutions, and the federal reserve system; business organizations; market practices of salesmanship, advertising, and competition; the business cycle; the role of the consumer and of the worker.
Three hours a week.
Second semester.

Credit, six semester hours.

EDUCATION

DR. BURK

11. Introduction to Education. The purpose of the year's work is to help the student develop an intelligent interest in, and comprehension of, the elaborate system of public education in the United States. This course includes a brief orientation in the field of present-day education, a survey of costs, teacher qualifications, etc., and some examination of European practices.
Three hours a week.

1, 2. Composition. This course is required of all students in the first-year college or candidates for any certificate or diploma.
This introductory course in the art of writing reviews the structural principles of composition, emphasizing expository writing and the tactic of the essay. The second half of the course consists of a survey of the elements of argument, description, and simple narration, with emphasis upon more imaginative writing. The second half of the course will be in positive writing that of the first half. Throughout the course there will be an active writing practice illustrative of the separate types of composition.
Three hours a week.

Frequent themes or their equivalent, with individual conferences, are supplementary to the work of the class room.
A special class in the fundamentals of English composition will be provided for students whose written work during the first weeks of the year shows marked deficiency in spelling, grammar, punctuation, sentence structure, and paragraph organization. The purpose of this class will be to prepare the student for regular work in the accredited course by the beginning of the second semester.
If a student who has already received credit for required composition is reported deficient or careless in the writing of English, it will be necessary for him to take additional work in the course.
Three hours a week.
First semester, second semester.

Credit, three semester hours.

3, 4. Comparative Literature. This course emphasizes types of English literature, compared with foreign specimens. The epic, the drama, poetry, and other types are studied comparatively. In this way is obtained a wider knowledge of ancient and European literature and a richer background for subsequent courses in literature.
Three hours a week.
First semester, second semester.
Second semester.

Credit, six semester hours.

21, 22. Survey of English Literature. This course is required for graduation. The first part consists of the survey from Beowulf to the Restoration Period; the second part from the Restoration through the Victorian Period.
Prerequisite: English I, 2.
Three hours a week.
First semester, second semester.

Credit, six semester hours.

21B, 22B. Survey of English Literature. This course may be substituted for English 21, 22. During the first semester: historical development of the English novel, of drama, of poetry, and of non-fictional prose taken successively and beginning in each case with the present. During the second semester: these threads of development woven into a cross-section survey which proceeds chronologically from the Anglo-Saxon period through the Victorian.
Three hours a week.
First semester, second semester.

Credit, six semester hours.

23. Shakespeare. A careful study is made of a number of Shakespeare's plays with a more rapid reading of others. These are compared with various plays, Elizabethan and others. The first quarter's work consists of the comedies and histories; the second of tragedies and romances.

Credit, three semester hours.
25. Early American Literature. A study is made of the leading American writers
in prose and poetry up to 1870 with especial emphasis on the historical back-
ground and the development of American ideals.
Prerequisite: English, 1, 2.
Two hours a week.
First semester.
Credit, two semester hours.

25-B. Course as above with more intensive study of the writings of various
authors.
Prerequisite: English 1, 2.
Three hours a week.
First semester.
Credit, three semester hours.

26. Modern and Contemporary American Literature. The modern movement is
considered in poetry, essay and biography on American subjects, from 1870 to
the present.
Prerequisite: English 1, 2.

Credit, two semester hours.

26-B. As above but with more intensive study and reports on various authors.
Prerequisite: English 1, 2.
Three hours a week.
Second semester.
Credit, three semester hours.

27. Advanced Composition. This introduction to journalism includes a criti-
cal study of the leading forms of literary composition with intensive practice
in writing and numerous conferences. The work consists of essay, critical review,
editorial, news story, short story, metrical forms and other imaginative writings.
Prerequisite: English 1, 2.
Three hours a week.
First semester, second semester.
Credit, six semester hours.

EXPRESSION

MISS TOWNSEND, Director

The aim of the School of Expression is to arouse an interest in the
dignity and purity of speech and to establish right vocal interpreta-
tion of literature. This end must be accomplished through scientific
training of mind, voice and body which will stimulate, not only in
public appearances but also in every-day personal contacts, self-
confidence, leadership and creative power. Although emphasis is
placed upon the use of the voice, much attention is given to the
effective use of the body as an aid in the expression of thought
and emotion.

Every effort is made to eradicate all local dialects and speech
defects.

The applicant for a certificate or diploma in Expression needs to
offer for entrance any fifteen acceptable college entrance credits.

CERTIFICATE AND DIPLOMA REQUIREMENTS

A certificate in Expression is awarded to those students who com-
plete satisfactorily thirty-two semester hours of college work, in-
cluding:

Miss SEAY

MISS RUEF

Prerequisite: two years high school French or French 11, 12 or its equivalent.
Three hours a week.
First semester, second semester.

Credit, six semester hours.

NOTE—If a student who enters this course shows herself deficient in preparation it will be necessary for her to enter a special section meeting four periods a week so that she may receive more personal attention. This section will review the fundamentals of grammar, dictation, and pronunciation more intensively but will cover the same ground as the regular French 13, 14 classes and will receive the same credit.

17, 18. Advanced Grammar. The course is designed to complete and fix in the mind of the student the fundamentals of the grammar and to increase her facility of expression in the foreign language. It is essential for all those wishing to major in French and is advisable for all taking the literature course.
Prerequisite: French 13, 14 or its equivalent.
Two hours a week.
First semester, second semester.

Credit, four semester hours.

T. 19, 20. The Reading of French. The readings will be based on a history of French literature, with examples of plays, novels, short stories and poetry from various periods. Current magazines and newspapers will be used, with stress on reading in French, and therefore, on pronunciation. Lectures in French will be given for the opportunity of hearing the language.
Three hours a week.
First semester, second semester.

Credit, six semester hours.

21, 22. General Survey of the History of French Literature. Reading of authors representative of each period: recitations, discussions and themes on classroom and outside reading.
Prerequisite: French 13, 14 or its equivalent.

The second half of the course covers the period from 1660 to the present. Topics stressed are: the political revolutions, the colonial and imperial expansion, the commercial and industrial development, England's part in the World War, and recent trends in the Empire.
Three hours a week.
First semester, second semester.

T, 27, 28. Political Science. The purpose of this course is to give the student an intelligent understanding of and interest in the nation of which she will become a citizen. The first part of the course is designed as a background for the study of present-day affairs. A rapid survey of the history of the United States is made; the discussions of the settlement, expansion, and development

*NOTE—History 25, 26 is not designed for students who have had History 11, 12.
WARD-BELMONT

of the nation lay the foundation for current readings and interest in present-day affairs.

The second part of the course is designed as a practical guide for an understanding of the duties and privileges of citizens in any community. Problems of and possibilities in an intelligent participation in government are pointed out.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

HOME ECONOMICS

MISS LOOF
MISS SWENSON, Director
MRS. VANCE

The Department of Home Economics offers courses to meet the needs of several groups of students. The survey courses are planned for those who desire some knowledge of Home Economics as a part of a general education but who do not wish to specialize in this field. One to four semesters may be taken as part of the General Diploma course.

The foods and clothing curricula have been planned for those who wish to take, in two years, a well-rounded course in general Home Economics or in either of its phases as a basis for better living. These courses are planned also for those who wish to continue a four-year course leading toward a degree in Home Economics. These classes are open to other students also if the required parallel and prerequisite courses are elected.

The Department of Home Economics awards two diplomas to be granted upon the completion of sixty-four semester hours with sixty quality credits.

To apply for either diploma a student needs to offer for entrance any fifteen acceptable college entrance units. A student who expects to transfer to senior college for continued work in home economics should offer for entrance the college entrance units listed on page 21.

Credit, three semester hours.

LATIN
MISS CASON

One of the chief aims of this department is to assist the student in acquiring a background of classical culture which will enrich her future attainments in whatever field she may choose for specialization. An effort is made to stimulate interest through extensive collateral readings, through illustrative material in art and archaeology, and through a conscientious investigation of the facts of Roman life and literature. The student is taught, as far as the opportunity is afforded, to appreciate the debt of the modern world to Rome and, through Rome, to Greece.

1. Cicero. Reading of not less than four orations (or an equivalent amount in a text like Ullmann and Henry's Third Year Latin Book); oral and written composition; sight reading.

Prerequisite: Two units of high school Latin.
Four hours a week.
First semester.
Credit, four semester hours.

4. Vergil. Reading of not less than four books of the Aeneid. A study will be made of the entire poem. Extensive collateral readings; oral and written composition; sight reading.

Prerequisite: Three units of high school Latin, or Latin 1 or the equivalent.
Four hours a week.
Second semester.
Credit, four semester hours.

11. Cicero: De Senectute, Tusculanae Disputationes I. Syntax reviews; practice in the writing of Latin; collateral readings; a study of the philosophical thought of the ancients, with especial attention to Stoicism and Epicureanism.

Prerequisite: Four units of high school Latin, or Latin 4 or the equivalent.
Three hours a week.
First semester.
Credit, three semester hours.
12. Selections from Latin Prose and Poetry. A text with this title, edited by Harrington and Scott, will be used for this course. While illustrative selections from several authors will be translated, attention will be given chiefly to Catullus, Horace, and Livy. Syntax reviews; practice in the writing of Latin; collateral readings.

Prerequisites: Four units of high school Latin, or Latin 4 or the equivalent.

Three hours a week.
Second semester.
Credit, three semester hours.

13, 14. Latin Writing. The purpose of this course is to develop syntactical accuracy, good diction, and an appreciation of the difference between English idiom and Latin idiom. Students who expect to major in Latin are urged to take the course.

Prerequisites: Four units of high school Latin, or Latin 4 or the equivalent.

One hour a week.
First semester, second semester.
Credit, two semester hours.

15; 16. Classical Mythology. The most important myths are studied, with especial reference to their use in ancient and modern literature and art. While attention will be concentrated chiefly on Greek and Roman mythology, some time will be devoted to the myths of other countries. A knowledge of Latin, while helpful, is not necessary. Open to all students of college grade.

Two hours a week.
First semester, second semester.
Credit, four semester hours.

21. a. Roman Comedy. Selected plays from Plautus and Terence. Three plays will be read carefully; others will be taken rapidly or in translations. Collateral readings.

Prerequisites: Latin 11, 12 or the equivalent.

Three hours a week.
First semester.
Credit, three semester hours.

22. Roman Tragedy. Three of Seneca’s tragedies will be read in Latin; others will be taken in translations. Comparison with the Greek originals. Attention to Seneca’s influence on European tragedy. Collateral readings.

Three hours a week.
Second semester.
Credit, three semester hours.

LIBRARY METHODS
MISS CHURCH

A course in the use of books and libraries is required of all first-year students during the first quarter. If the work is not passed satisfactorily the course must be repeated. This course is designed to give facility in the use of books and libraries. The work consists of lessons on the use of the card catalog, encyclopedias, dictionaries, and general reference tools, with some practice in note-taking and the making of bibliographies.

Two hours a week.
First quarter.
Credit, one semester hour.

MATHMATICS

MISS CLEMENT          MISS EWING          MRS. SHACKLEFORD

1. College Algebra. A general review is made of all topics usually covered in a second-year high school course in addition to all topics offered in Mathematics II.

Prerequisites: Algebra, 1 unit; Geometry, 1 unit.

Five hours a week.
First semester.
Credit, three semester hours.

11. College Algebra. A general review is followed by a study of exponents, radicals, quadratic equations, simultaneous quadratic equations, inequalities, binominal theorem, progressions, complex numbers, theory of equations, and determinants.

Prerequisites: Algebra, 1 1/2 units; Geometry, 1 unit.

Three hours a week.
First semester.
Credit, three semester hours.

12. Plane Trigonometry. The work consists of trigonometric functions and formulas, theory and use of tables, solution of right and oblique triangles (with applications to problems of Physics and Surveying), inverse functions, trigonometric equations.

Prerequisite: Mathematics I or II or the equivalent.

Three hours a week.
Second semester.
Credit, three semester hours.

21. Analytic Geometry. Graphical representation of points and curves in a plane, determination of the properties and relations of plane curves by a study of their equations and graphs. The straight line and the conic sections are fully investigated.

Prerequisite: Mathematics I or II or its equivalent.

Three hours a week.
First semester.
Credit, three semester hours.

22. Differential Calculus. Beginners’ Course. Methods of differentiation, with the usual geometric and physical applications. Problems of maxima and minima, etc.

Prerequisite: Mathematics 21.

Three hours a week.
Second semester.
Credit, three semester hours.

MUSIC

MR. RIGGS

15; 16. History of Music. A general survey of the development of music from the earliest times to the present day. PHYSICAL EDUCATION

MISS MORRISON, Director

MISS CARLING

MISS GOODRICH

MISS JETER

MISS O'DONNELL

MISS CAYCE

MISS SMITH

The value of Physical Education, both morally and ethically, the training of the body for utility and grace, and the intelligent care of it for protection against weakness and disease, make the School of Physical Education one of greatest importance. Every effort has been made to make the equipment and management as complete as possible. Physical training is given free of charge to all students, and is required of them for at least three hours a week in every year. A physical examination is given at the beginning of the session, and a record is kept of the condition of the individual. From this record the student is advised as to the kind and amount of exercise best suited to her needs.

THE GYMNASIUM.—The Gymnasium Building is complete in every detail. On the main floor are two gymnasium rooms—one 90x50 feet, for general activity; the other, 50x28 feet, equipped for special exercise. On this floor also are the executive offices and an examining room. A balcony surrounding the main gymnasium furnishes ample space for spectators. On the balcony floor are recitation rooms, a dancing studio, and a trophy room. On the lower floor are the lockers, dressing rooms, shower baths, and hair dryers. On this floor also is a shampoo room, four bowling alleys, and an instructor's office.

WARD-BELMONT

THE SWIMMING POOL.—The swimming pool is in a separate building, adjoining the Gymnasium Building. It is 23x50 feet, and is constructed of white tile. The water is constantly filtered and sterilized, and is kept at the temperature necessary for comfort. The pool room is 66x28 feet, 39 feet in height, surrounded by a spectators' balcony, and supplied with windows on both the pool and balcony floors. A glass roof gives added light.

THE ATHLETIC FIELD.—The outdoor equipment consists of two athletic fields (100x50 yards), three basketball courts, an archery range, four tennis courts, and a riding ring. Adding to the completeness of this equipment is a cement court (179x40 feet), which makes possible the playing of tennis and other games outdoors the entire year.

THE STABLE.—Kentucky and Tennessee are world-famed as the birthplace of the American saddle horse. It seems altogether fitting that a school situated within a few miles of the famous Belle Meade Stock Farm should offer every opportunity to its students to perfect themselves in the one sport for which the South for generations has been preeminent.

The Ward-Belmont stable is owned and maintained by the school. It consists of gaited saddle horses carefully selected as types of disposition entirely suitable for school work, and are as safe as is possible for horses to be. Careful instruction is given in the various types of horsemanship, and a groom is in constant attendance, both in the ring and on the road.

RIDING CERTIFICATE

The following course leading to a Riding Certificate is offered for students eighteen years of age or older who wish to specialize in riding:

Physical Education 19, 20

Physical Education 29, 30

Physical Education 15, 16

DANCING

The courses offered by the Dance Department have been given due consideration from an artistic and physical standpoint. The first grants an intelligent appreciation of Dancing as to beauty, interpretation, characterization, and musical improvisation. The second, through the practice of rhythmic exercise to musical accompaniment,
ensures the student to attain perfect posture, grace and poise, accomplishing as a result a coordination of mind, body and muscle.

The teaching method used is a combination of ballet, Denishawn, and German or "modern" dancing, with special classes for toe and tap.

A student who applies for the Dancing Certificate or Diploma needs to offer for entrance any fifteen acceptable college entrance units.

Notes—Academic subjects required for this diploma are not included in the extra charge for the work of this department.

The applicant for the Dancing Diploma must give a creditable program of dances, two of which must be her own compositions, with costumes designed by her.

*Two years of French in high school meets this requirement.

High school students who wish to perfect themselves in the art of Dancing or who wish to work toward the Dancing Certificate, are permitted to do the practical dancing work—six hours a week—and will be awarded a Proficiency Certificate in Practice at the completion of two years of work.

**PHYSICAL EDUCATION DIPLOMA**

A two-year course is offered to those who wish to specialize in Physical Education. To apply for this diploma a student should offer for entrance the college entrance units listed on page 21.

Applicants to the course must be without organic disease or any serious functional disorder. The course each year amounts to twenty-six semester hours of recitation or lecture, and a minimum of six hours per week in practical work. For the latter, six semester hours of credit are allowed. A minimum of sixty quality credits† on the two-year course is required.

Economics 21, 22, Sociology 21, 22 and Psychology 21, 22 are strongly recommended as elective subjects.

I, 2. Elementary Shorthand. This course embraces the fundamental principles of the system of shorthand, with special emphasis upon word signs and construction, elements of phrase writing, accuracy tests and letter writing. Shorthand penmanship drills are given daily. No credit is given for this course unless taken in conjunction with Typewriting 3, 4.
   Three hours a week.
   First semester, second semester.
   Credit, six semester hours.

3, 4. Elementary Typewriting. The object of instruction in typewriting is to impart a correct scientific method of finger work and a uniform touch, and to train the students in all the details of form and arrangement of the transcript. The materials used are literary articles, business letters of all kinds, telegrams, rough drafts, articles of agreement, certificates of incorporation, the writing of a will and other legal forms, and speed tests.
   Test for promotion: New matter at not less than thirty words per minute net, for fifteen minutes with not more than five errors.
   No separate credit is given for this course. Three hours a week, two hours laboratory.

5, 6. Bookkeeping. The purpose of this course is to present a plan of keeping the records necessary for the average professional man, or small business, without going into detail into the development of accounting principles.
   Each student is required to have and keep three sets of books. The work includes single and double entry bookkeeping; practice in the use of checks, drafts and notes; the preparation of balance sheets, statement of profit and loss; and closing the ledger. Books used in this set are: (1) Books of original entry, such as cash, sales and purchase books; (2) the ledger as a final record of account.
   Lectures are given on the following topics: gambling, speculation and investment; stocks and bonds; money and banking.
   Typewriting 3, 4 must be taken at the same time unless special permission is granted otherwise.
   Four hours a week.
   First semester, second semester.
   Credit, four semester hours.

11, 12. Advanced Shorthand. Attention is given to phrasing and ability to write and translate shorthand with greater speed and accuracy. Dictation consists of business letters, legal documents, such as wills, deeds, and mortgages, and court reporting. Efficiency contests are given daily throughout the year at different rates of speed, 60, 80, 90 and 100 words per minute.
   Court reporting is taken up the second semester. This includes practical reading and writing shorthand notes of court testimony, jury charges and various phases of court work.
   Frequent lectures are given during the year on secretarial training, personality of the secretary, and the secretary as office manager. Some ten or twelve recent books on business organization and correspondence are read and discussed.
   No credit is given for this course unless taken in conjunction with Typewriting 13, 14.
   Prerequisite: Stenography 1, 2.
   Three hours a week.
   First semester, second semester.
   Credit, six semester hours.
13, 14. Advanced Typewriting. This is a continuation of Typewriting 3, 4. It includes the transcribing of shorthand notes on the typewriter, letter writing, speed tests, training in the care of the machine, and the modern methods of manifolding and filing papers.

Text for promotion: Advanced new matter at not less than 55 words per minute for fifteen minutes with not more than five errors.

No separate credit is given for this course. Three hours a week, two hours laboratory.

15, 16. Accounting. This course is designed to serve as an introduction to the entire field of accounting. Practice and theory are developed as a unit. The following topics are considered:

Accounting Defined; The Accounting Process; The Balance Sheet, as to function, construction, form and classification of accounts; The Statement of Profit and Loss, as to function, construction, form and classification of accounts; The Working Sheet, accounts, objects, construction, classification, charting; Depreciation, Depletion and Amortization; Sole Ownership; Partnership, opening books, adjustment of accounts, dissolution; Corporation, characteristics, opening of the books, capital stock, surplus and reserves, dividends, sinking fund; Intercompany, Branch, and Departmental Relationships; Fiduciary Accounts; Annuities; Auditing, the auditor, responsibility, procedure and reports.

Prerequisite: Bookkeeping.
Six hours a week.
First semester, second semester.
Credit, six semester hours.

17; 18. Commercial Law. This course is designed to give the student a thorough and correct understanding of the fundamental principles of commercial law, and to teach her the attitude of caution and deliberation so that she will undertake business transactions thoughtfully and with a knowledge of her legal rights. The course covers a study of sales, agency, negotiable instruments, guaranty, insurance, real property, partnership, corporations, and other subjects. Particular emphasis is given contracts.

Two hours a week.
First semester, second semester.
Credit, four semester hours.

20. Office Training and Observation. The purpose of this course is to provide, as nearly as possible, a business laboratory in which the student applies the principles learned in other secretarial courses and acquires further information on phases not emphasized in those subjects, such as indexing, alphabetizing, mailing, filing, and the operating of various office appliances. In addition to assigned projects, reading and reports, the students will go on field trips for observation of office routine in different types of business organizations.

One hour a week.
Second semester.
Credit, one semester hour.

SOCIOLOGY

21. Introduction to Sociology. This course undertakes to explain the origin, structure, growth and activities of society by the working of psychic, physical and other vital forces operating together in a continuous process.
THE HIGH SCHOOL

REQUIREMENT FOR ADMISSION.—Students who have completed the grammar school grades will be admitted without examination to the first-year high school class. It is necessary that the applicant present from the principal of the school from which she comes an official statement that she has completed the grammar school grades.

Students who seek admission to any high school class beyond that of the first year must present upon application a transcript showing the official record of all high school work previously carried. If the school is not accredited, satisfactory examinations will be required.

YEARNLY SCHEDULE.—A student's yearly schedule should consist of four subjects credited as one unit each. Under certain conditions, however, a minimum of three subjects and a maximum of five are allowed. In addition, physical education is required of all students each year. For a description of the required courses see page 65.

REQUIREMENTS FOR THE HIGH SCHOOL CERTIFICATE.—The high school certificate is awarded to students who have completed sixteen preparatory units, as described below, and the prescribed work in physical education. Of the required sixteen units at least four must be taken in Ward-Belmont.

A unit represents five periods of at least forty-five minutes each per week for a year in a subject ordinarily taught in standard high schools, each recitation requiring preparation. Periods at Ward-Belmont are of a minimum duration of fifty minutes.

No credit is given for less than two units of a foreign language taken in high school.

Required Units—9.

- English
- Foreign Language
- History
- Mathematics
- Science

Elective Units—7.

NOTE.—Physics, when transferred from an accredited high school, will be accepted in place of Biology or Chemistry. For pupils not preparing for college entrance some other unit may take the place of Geometry.

CREDIT ALLOWED IN SPECIAL SUBJECTS.—Units in the special subjects—art, expression, home economics, music—will be credited toward a high school certificate. Art.—One unit represents eight periods of supervised studio work per week. Expression.—One unit represents four periods of prepared class work per week. Home Economics.—One unit in Cooking or in Sewing represents three lecture periods and two double laboratory periods each week. Music.—One unit of credit represents two lessons per week in piano, organ, violin, or voice, accompanied by a course in theory of music or musical appreciation. One hour's daily practise is required.

CLASSIFICATION.—The work completed by the beginning of a school year determines the class to which a student belongs.

- Four completed units give second year classification.
- Eight completed units give third year classification.
- Twelve completed units give fourth year classification.

If a student lacks not more than one of the required number of units, she will be given conditional classification.

REPORTS AND GRADING SYSTEM.—Reports are sent out from the office at the close of each month and at the close of each semester. The monthly grade represents the average standing which the student has maintained, by daily recitations, written work and tests, during any given month. The semester grade represents the combination of the semester examination and the average of monthly grades.

The system of grading is as follows:

- A Excellent
- B Above Average
- C Average
- D Passing
- E Condition
- F Failure

The school may not recommend for advanced high school or college work a student who does not make an average grade of "C."

WARD-BELMONT

MUSIC

The Ward-Belmont School of Music possesses the combined virtues of the Belmont School of Music and the Ward Conservatory, both of which had long been the objects of the high praise and the generous patronage of educated musicians both in and out of Nashville. It is a complete modern Conservatory of Music; it offers to music students what all of them need — supplementary work in English, Literature, and the Modern Languages. The best musical educators are agreed that general mental discipline should not precede, but should continuously accompany, musical studies; and schools of music are seeking what we have already at hand—intimate affiliation with literary classroom work. Under our system, musical study and practise are not allowed to suffer or be crowded out, but the student is shown how she may become both a cultured woman and a thorough musician.

Our musical faculty is one of the largest and most expensively maintained in any school for girls in America. No teacher is chosen who has not had the best of advantages, most of them in both this country and Europe, teachers who have supplemented graduation from the leading conservatories with years of special study under the recognized masters of two continents. All of them are tested teachers.

Piano, Voice, Violin and certain other stringed instruments, Pipe Organ, Theory, Harmony, Composition, History and Appreciation of Music, Interpretation, Ear Training, Sight Playing and Chorus, Ensemble and Orchestral Work, Repertoire and Memorizing, and Faculty, Student, and Artist Recitals—all, and more, take their appropriate places and contribute to the creation of a wholesome and inspiring musical atmosphere. Such an atmosphere is possible nowhere except in a large school where musical education is seriously undertaken by a faculty composed of tested professional musical educators.

Frequent student recitals are given, as are recitals and lectures by members of the faculty and other eminent musicians. Pupils may attend the best concerts in the city, and the world's greatest artists appear in Nashville from time to time. The immediate and convenient value of these advantages at our own door will be the more apparent when it is known that our students may have throughout the season the great musical entertainments, but a very few of which other Southern schools can enjoy, and these only by means of travel and additional expense from the smaller towns into the city.
 Ninety pianos, including ten Steinway Grands and two Steinway Duo-Art Pianolas, are available for school use. Boarding students specializing in Music are required to take at least one literary course. Practise in ensemble work is offered through the Orchestra and the Glee Club. Students who possess the requisite ability in voice or in instrumental work are eligible for membership in these organizations whether or not they are carrying work in applied music.

**ORCHESTRA**

The Ward-Belmont Orchestra was founded by Fritz Schmitz, in 1908. Since 1918, this organization has been under the guidance of Kenneth Rose, director of the school of violin of Ward-Belmont School, who has developed this body of students and young professionals to symphonic proportions both in completeness of its instrumentation and the artistry of its performances. Many members of the Nashville Symphony Orchestra are present or past members of this body. The repertory includes all the standard overtures, movements of well-known symphonies such as the Schubert Unfinished, Dvorak New World, Tchaikovsky No. 4, Cesar Frank, etc. With its function, that of superior training for those interested in orchestral routine, the Ward-Belmont Orchestra is contributing in a most helpful way to the artistic development of the South.

The schedule of the orchestra calls for at least one public appearance yearly, in which the featured soloist is usually an advanced student of Mr. Rose, and weekly rehearsals in the school auditorium. Credit is given to all pupils of the school for regular attendance, and an examination by Mr. Rose is required for admission.

**THE GLEE CLUB**

The Glee Club consists of the best voices selected from the entire school. Preference is given to those with natural or developed voices and with some attainments in general musical knowledge. The club is open however to any student in the school who is really interested and extra time is spent to assist her in developing the equipment necessary for her to keep her place in the club.

Lectures are given on tone production and the art of singing; careful attention is paid to diction and the fundamentals of music (notes, time, rhythm, etc.) are taught. A term paper showing the individual benefit derived from the course is required, and full college credit is given for the time expended.

The programs which are studied and rendered at recitals given by the club cover, as far as possible, the many phases of choral work, ranging from the opera to simple folk tunes. The polish and excellence with which the club sings has brought it well deserved praise and has made it one of the most popular organizations of the school.

**CHORAL WORK**

Much stress is laid on the value of ensemble vocal work in the school. At the community "sings" which are held regularly, classical as well as popular songs are taught and part singing is stimulated. Every individual, whether or not interested in music in any form here-tofore, or in any degree talented, learns to feel the inspiration of mass endeavor. She learns also to appreciate the spirit of giving and doing through beauty, which is the underlying essence of music. This training is carried on in the splendid congregational singing of hymns at the various chapel services, in the singing of carols and club songs and in the traditional step-singing.

**THE CHOIR**

The robed choir, which plays a very material part in the religious life of the school, is composed of students who have had at least one year's work in the glee club or an equivalent amount of musical training. This requirement is made in view of the continual work of the choir and of the musical difficulty of the subjects undertaken. While no college credit is given for this work the benefits derived from the training are of inestimable value to anyone interested in church music.

WARD-BELMONT

All boarding students must meet the minimum course of study requirements for college students as given on pages 22-23 of this catalog.

Pupils desiring to become candidates for certificates and diplomas must announce themselves through their respective teachers not later than October 20.

There will be held between February 1 and 15 and between May 1 and 15 examinations on the requirements for certificates and diplomas. The candidates must, in February, stand an examination before the music directors on one-half the technic required and on one-half the repertoire. An examination of the remaining half of the requirements must be taken before May 15.

Candidates for certificates and diplomas must appear in public recital at least three times during the session.

COURSE OF STUDY FOR CERTIFICATE IN HARP

Technic.—Development of a knowledge of scales, fingering, and chords with much stress on the tonal quality and production. Special emphasis on accurate and careful pedal work. Thorough knowledge of all the new effects available on the harp, as instructed in "Modern Study of the Harp," by Carlos Salzedo. Working knowledge of orchestra parts.

The candidate is required to attend orchestra practice for at least one school year.

GENERAL STATEMENTS

EQUIPMENT

Well-equipped buildings and beautifully planned grounds.

Sterilized, filtered water runs ice-cooled to hygienic drinking fountains on every floor.

Light, airy dining halls, and scientifically equipped kitchen and bakery.

Gymnasium, with shower baths and swimming pool, free to all students.

Separate dormitories for College and High School students.

The Star Entertainment course offering unusual advantages in lectures, musical recitals, concerts.

Every provision against fire—regular fire-drills, fire escapes, fire extinguishers, fire hose—though there is no fire in the buildings except in kitchen and bakery.

A modern infirmary in the main building maintained under professional supervision. Pupils who are too ill to meet school appointments are cared for here instead of in their bedrooms.

Each residence hall in the charge of a hostess who is always accessible for counsel, and who devotes her entire time to the training of the girls of her household in such questions as appropriateness and simplicity in dress, neatness and order in the bedrooms. In a word, these hostesses undertake to perform the office of the refined mother in a Christian home.

With the exception of a few single rooms, each bedroom is for two girls, and is furnished with single beds, separate closets, and other usual comforts.

RELATIONS WITH PARENTS AND STUDENTS

Parents who register students thereby accept the conditions in this catalog. Parents are requested not to send to the students boxes containing food other than fresh fruit and a limited amount of candy.

Parents may not give permissions that conflict with the rules of the school. Lengthy visits of parents or other members of students' families are discouraged.

Testimonials of character and health must accompany or follow each new pupil's application for admission.

A student who is found to be out of sympathy with the spirit and ideals of the school may be asked to withdraw, even though she may not have broken any formal rules.

Boarding students are under school regulations from the moment of their arrival in Nashville until their departure from the city. Parents should not, without conferring with the school, grant social or other permissions in the city before the student enters or after she leaves school.

Parents are requested not to permit their daughters to bring to the school expensive jewelry or heirlooms of any kind. Neither should they be permitted to bring expensive wearing apparel. The school is not responsible for loss or theft.

All permissions of parents or guardians should be written and addressed to the management, and are subject to the approval of the management. Even during the visits of parents, pupils are still subject to the rules of the school.
WARD - BELMONT

The school bank, with its system of pass books, deposit slips, checks, and monthly balance reports, not only cares for the spending money of students, but teaches them how to keep a bank account, draw checks, and conduct their own financial affairs. We are not responsible for money or valuables not deposited in the school bank. Ward-Belmont does not lend money to students. Drafts made by students are honored by us only in cases of emergency or upon the written request from parents or guardians.

Students should bring sufficient funds with them to care for buying books and other school supplies. This money should be deposited in the student bank until needed. No charge purchases are permitted in the bookroom.

Parents and guardians are expected to cooperate with the school in securing full and regular attendance, especially at the beginning and end of the school year and just before and just after the Christmas holidays. Much educational value attaches to the commencement season, and no student should miss any part of it. All students have obligations to the end of the session. Those who leave earlier, or who do not keep appointments throughout the closing days, will thus fail to earn full credit for the work of the last quarter.

Visitors are received in the central parlors, not in residence halls.

Men callers are received by written permission from parents addressed to the school.

Victrolas are not permitted in the dormitories.

Borrowing and lending except by special permission is prohibited.

Adequate compensation must be made for any defacement of school property.

Neatness and order are expected of all students in the care of their rooms.

Chafing dishes and electrical appliances will not be allowed in the students' rooms. Rooms are provided for this purpose.

Discipline in Ward-Belmont is simplified by a modified form of student government, properly safeguarded by faculty supervision and cooperation.

Except when they are in the Nashville homes of near relatives, pupils from a distance are required to board in the school.

No Ward-Belmont student may sell or give articles of clothing to the pupils without the knowledge and consent of her hostess.

Boarding students are not permitted to open charge accounts with Nashville merchants except on written request filed by the parent with the Dean of Residence.

Smoking is not permitted.

Any student who leaves the campus without permission, or who attends a dance in Nashville, or who checks in examination readers himself liable to summarily dismissal.

Boarding pupils are not allowed to visit in the city except with the approval of parents and the school management. Permission is not granted to stay the night in the city, except with parents or in the homes of near relatives. Such permission will not be granted more frequently than one week-end in a month.

The school reserves the right to withdraw any class for which there are not as many as six applicants.

A tutor is provided at moderate cost for students who need coaching to enable them to keep up with their classes.

School work missed just before or after the Christmas holidays must be made up at the student's expense.

School work missed because of absence must be made up to the teacher's satisfaction; otherwise credit cannot be given for the course. Ordinarily a tutor can be provided at $1 to $1.50 per hour. Semester examinations not taken at the appointed time must be taken later, and a charge of $2 each will be made.

CHARGES AND TERMS

EXPENSES AT WARD-BELMONT, NASHVILLE, TENNESSEE

The school year consists of one term of thirty-six weeks, beginning the third Wednesday in September and ending the first Wednesday in June, with a Christmas vacation* of approximately two weeks. The charges here named are for the whole school year, and are due and payable on the opening day of school, but for the convenience of patrons payment may be made in two installments—in September and January, respectively, as stipulated below—and are subject to sight draft after these dates.

An advance registration fee of $25.00 must be forwarded with the application, which amount will be credited as a prepayment on the school account. It is not subject to return, unless the applicant is rejected.

Board, room with bath on hall, tuition in two or more subjects in the Literary Department (including Latin, French, German, Spanish), Physical Training, Athletics, Swimming, use of Library, $50 Entertainment Course, use of house linens (see page 14); Laundry, within liberal, but specified limits; $200 for two girls in a room, each occupant $850.00 of which $575.00 is required on entrance, balance January 1st.

Board, etc., as above, in rooms in suites of two, with connecting bath, two girls in a room, each occupant $900.00 of which $600.00 is required on entrance, balance January 1st.

Single rooms in suites of two, with connecting bath, one girl in a room, are available each at $900.00 for board and literary tuition, of which $600 is required on entrance, balance January 1st.

A few single rooms, with bath on hall, are available at $850.00.

When two students come from the same home (sisters) there will be allowed a reduction of $150.00 on the joint account; provided, however, that both remain in the school for the entire year and that all charges are paid when due.

Teachers and ministers in active work in their professions may be allowed a professional discount of $100.00 on the charges of the regular course. However, only a limited number can be accepted on this basis.

Each of the above-named fees for board and tuition includes Physical Training, so necessary to health, use of Library, and the modern languages—French, Spanish, German, Latin, Greek, and English.

*The school buildings will be closed during the Christmas vacation, but provision will be made for the board and care of students during this period at $25 a week.

In addition to the several regular great concerts and recitals which may be heard in Nashville during the year, Ward-Belmont will present to its students during the session, ten or more entertainments brought to Nashville at a cost of $8,000 or more, embracing some of the best in Music, Art, Expression, and Literature. These include simple medicines and nurse's attention (except when a special attendant is necessary).
German, and Spanish—all of which, in many schools, are charged for as "extras." Swimming is also included without extra cost. It is the policy of Ward-Belmont to include in the regular charge abundant provision for health in Physical Culture, every literary requirement for graduation, and the essentials for a broad culture. It is thus evident to one considering these features and the liberal additions made to buildings, equipment, and faculty during the last few years that the charge for boarding students is remarkably reasonable. The charges listed below are made for those who wish to specialize in the subjects named or to supplement their work along those lines.

Students enter for the entire school year or such part of school year unexpired at time of entrance. No reduction will be made for time lost during the first four or last six weeks of the school term. By reason of the fact that contracts with instructors and others are made by the school for the entire school year in advance, no reductions will be made on account of dismissal, withdrawal or other absence, except in cases of protracted illness of the student that may result in temporary absence or withdrawal. The school will share equally with the patron the board and miscellaneous expense on the basis of $25.00 per week, except that no allowance will be made on the first four weeks of such enforced absences.
