

Dr. Wm.
Kelly.

The success of Kelly Day is prophetic of larger and better things on the part of our young people. Brother Kelly will go to his field in China conscious of having hundreds of young people at home praying for his success. The souvenir pins are beautiful, and will be a constant reminder of our interest in the man whom we believe God has called and whom we are pledged to support as he goes forth in obedience to that call. Many a young and noble soul whom circumstances have detained at home will rejoice in the fact that he is permitted to have in Brother Kelly a representative in the foreign field. From all we have learned of Dr. Wm. Kelly, during our five years' acquaintance, we have no hesitancy in recommending him to the confidence of our Endeavor societies. He is as true as steel, and as brave as a lion. Years ago he felt the call to become a foreign missionary, and since that time he has not wavered one hair's breadth from his conviction. He has struggled against opposition and difficulties ~~apparently insurmountable~~. In the face of poverty, without a home, without money, he has made his way through college, and medical school. He has won for himself a host of friends and triumphed over obstacles which would have daunted a less courageous man. To-day, while you are reading these lines, he is on the wave of the broad Pacific hastening towards the work for which he has waited and worked and sacrificed. May God who holdeth the waves in the hollow of His hand, give him a safe journey and an abundance of joy in His labor of love.
